

## **Citizen Scientist Water Quality Monitoring Volunteers Needed!**

**CHOCTAWHATCHEE  
BASIN ALLIANCE**  
OF NORTHWEST FLORIDA STATE COLLEGE

**CBA is looking for multiple citizen scientist water quality monitoring volunteers to take over monthly water quality samplings on various water bodies throughout the Choctawhatchee Bay and River watershed.**

CBA has 20 years of water quality data that has been collected by our citizen scientists throughout the Choctawhatchee Bay and River watershed! This data collection is imperative to tracking water condition trends within our watershed. It is utilized by local and state agencies in management based decisions. It is also

available to the public by request or through the Florida Department of Environmental Protection state data base known as "STORET".

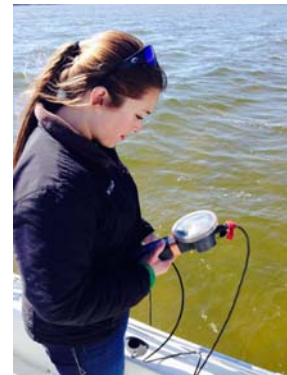

### Freeport Sampling

Our Freeport sampling sites cover Alaqua and La Grange Bayou and over to the mouth of the Choctawhatchee River and the Intracoastal Waterway. There are 8 sites total that require monthly water quality data and sample collection. A personal motorized boat is necessary to sample these sites.

### Rocky Bayou

Our Rocky Bayou sampling sites cover from the Rocky Bayou State Aquatic Preserve to the mouth of Rocky Bayou. There are 4 sites total that require monthly water quality data and sample collection. A personal motorized boat is necessary to sample these sites.

### Horseshoe Bayou

Our Horseshoe Bayou sites are located out of the Baytowne Marina area in the Bayou. There are 2 sites that are accessible by personal kayak through the Marina's sandy beach boat launch or by a personal motorized boat via the Choctawhatchee Bay. These sites require monthly water quality data and sample collection.

### Allen Lake (coastal dune lake)

Located behind Stinky's Fish Camp Restaurant on Scenic Highway 30a. There are 3 sites on this lake that are accessible by a canoe on-site. These sites require monthly water quality data and sample collection. Citizen scientists are provided a canoe to sample these sites.

## Western Lake (coastal dune lake)

Located at Grayton Beach State Park off of Scenic Highway 30a. There are 3 sites on this lake that are accessible by personal kayak/canoe. These sites require monthly water quality data and sample collection.

## Basin Bayou

Our Basin Bayou sites are located off of Highway 20 next to Nick's Seafood Restaurant. There are 2 sites located within the Bayou that are accessible by kayak/canoe or a small water craft through the boat launch at Nick's Restaurant. These sites require monthly water quality data and sample collection.
